QUALITY

Quality is something's we take very seriously.....ISO 9001:2015 Testifies.

" Our Moving Engines "

Services

Technical Support

Our engineers are always available to provide support and expertise to our customers. Whether you need technical advice on an application, help with product selection, support with installation requirements, recommendations on production, consultation on new product development, or instructions related to specifications, our technical support team serves as an extremely valuable resource to our customers.

Manufacturing

We operate from our own 5000 SQM property. State of the art manufacturing facility. From this facility we have the capacity to handle a wide range of project challenges from simple entrance and window frames to large glazed curtain wall projects. We are constantly re-investing in the latest machinery and equipment to ensure that we remain at the leading edge of our industry. All of this translates into quality products produced quickly and efficiently to meet our client's sophisticated taste.

Application Engineering

With in-depth knowledge of engineering and design, unrivaled creative vision, and a proven record of delivering on aesthetics as well as performance, our application engineers are the best in the business. We're known for developing custom solutions to fit our customers' needs, yet not compromising on quality and standards.

Quality Assurance & Testing

Innovative design is only valuable if it achieves optimum performance in its working state. Beyond meeting industry standards, we make sure that our products will withstand the trials of the real world. Testing is a continuous process throughout the entire life cycle of the product, from design and development to manufacturing. We go beyond the norm to make sure our products are the best on the market.
