

EUREKA TECH

Eureka Academy is a Technological Institution that is focused on ensuring that young people get a good head start in their quest to garner knowledge of the technological world. The Eureka Academy is based in Amman, Jordan and Eureka Online Academy is an offshoot of this respectable establishment. The Eureka Academy started in Jordan in 2014 as a mission to ensure that youngsters get the best and affordable education in the technology.

At Eureka Academy, we are focused on shifting the educational system to take on tasks like teaching technology and engineering as an integral part of school curriculums.

ABOUT EUREKA TECH

Eureka Online Academy is the recent brainchild of this wonderful citadel of learning and is specifically created to bring quality learning in the tech sector to youngsters at their remote locations without having to enroll for physical trainings. This online academy is unarguably the first of its kind in the Arab World, being the first online Academy to come out of the Arab World.

The Eureka Online Academy is fully integrated to ensure the all-round development of the innovative, technological and engineering skills of young people of all ages. Our platform is well-equipped with apparatuses they can adapt to quickly. Eureka Academy serves the purpose of equipping these young ones with the knowledge of the concepts of engineering by implementing an intriguing and engrossing system which consists of 10 Themes which are: Robotics, Electrical Engineering, Electronics, Control Systems and IOT, Renewable Energy, Games Development, Mobile Applications 1&2, Entrepreneurship and Graduation Project.

The Online Academy utilizes several effective structures of learning to ensure the students have a well encapsulating experience on the platform and to ensure that they are well imparted with the knowledge of the course areas they choose to major in. One exceptional thing about this Online Academy is that it focuses on giving children the information they need to engage the world technologically.
