Professor Fawwaz M. Al-Abed Al-Haq
President, The Hashemite University
Zarqa, Jordan

Sent via email

Dear Prof. Fawwaz Al-Abed Al-Haq:

At their February 2021 meeting, the directors of the National Architectural Accrediting Board (NAAB) voted to accept the Visiting Team Report for Hashemite University's Bachelor of Science in Architectural Engineering degree. HU's professional architecture degree program can proceed to visit three in the NAAB's International Certification process.

The NAAB wishes to congratulate the university on completing this step in the process for achieving the International Certification designation. The final step is a comprehensive visit by a four-person NAAB team. We anticipate that this visit will take place in fall 2021 or spring 2022. The process for initiating visit three is described in Section 5 of the *Procedures for NAAB International Certification* (<https://www.naab.org/wp-content/uploads/2019-Procedures-for-NAAB-International-Certification.pdf>). The Program Self-Evaluation Report for this visit must be received by the NAAB 120 days before the visit.

Before visit three, it is important for the program to make progress on correcting the six deficiencies identified in the Visiting Team Report. The NAAB directors noted their appreciation of the program's plan to correct each deficiency, submitted in response to the Visiting Team Report.

The following documents must be available on HU's website: the Program Self-Evaluation Report submitted for visit two; the Visiting Team Report for visit two (attached); and the current editions of the *Conditions for NAAB International Certification* and *Procedures for NAAB International Certification* (<https://www.naab.org/international/international-certification/>).

We look forward to continuing to support the architecture program at Hashemite University in the NAAB International Certification process. Please feel free to contact us at international@naab.org with questions.

Sincerely,

Marilyns Nepomechie, FAIA, DPACSA, NCARB
President
