In Feb 2011-Sept 2015: the entire department of Histopathology moved from Trafford General Hospital to the University Hospital of South Manchester

CURRENT APPOINTMENT: Department of Pathology Spire Hospital Manchester

CLINICAL SERVICE EXPERIENCE

Throughout my career in surgical pathology, I have been exposed, to a large extent, to virtually all areas. I have acquired a special expertise in liver and gastrointestinal pathology.

I also receive a large number of referrals mostly in liver and gastrointestinal pathology from within and outside U.K.

MANAGERIAL EXPERIENCE

I have gained wide ranging managerial experience, drawn from five principal areas, namely, The Unit, District/Trust, Regional, National and International levels.

UNIT

In the University Hospital of South Manchester (Withington) I was elected Consultant in Administrative Charge between January 1984 and January 1987. I was re-elected for the period July 1987 to January 1999.

The staff team at that time comprised of Professor, Senior Lecturer/Honorary Consultant, Lecturer/Honorary Consultant, Part-time Consultant, Full-time NHS Consultant, Lecturer/Honorary Senior Registrar, Senior Registrar, Registrar and Senior House Officer.

The MLSO staff consisted of 8 MLSOs , 2 trainees and 2 MLAs.

I became Post Graduate Training Supervisor in Histopathology 1987 to 2001.

I moved to Trafford Healthcare NHS Trust to assume the position of Consultant and Head of Department.

In February 2004 I was appointed as Chairman of the Research & Development Committee.

In Feb 2011 I moved back to University Hospital of South Manchester.

TEACHING EXPERIENCE AND UNIVERSITY COMMITMENTS

I have gained wide experience in various teaching activities during my services in the Universities of Baghdad, Cardiff, Central and South Manchester.

My commitment included formal lectures to the undergraduate students of the medical, dental and nursing schools, post mortem demonstrations, practical classes and tutorials.

I have been recruited as a Tutor for the new PBL teaching programme.

I am a regular examiner for Medical students.

I am an MD Thesis educational supervisor, University of Aleppo, Syria.

I participate extensively in postgraduate teaching, which includes lectures, symposia and conferences, both inside and outside the United Kingdom.

In my capacity as the person in charge of postgraduate training in Withington (University Hospital of South Manchester), I have organised various activities in our Department for our trainees, such as the Black Box and Post Mortem meetings, “Hot Seat Registrar”, and the Trainees’ Corner.

In addition, to regular scheduled intra and inter departmental meetings, I periodically attach one trainee to shadow me in various academic activities, exposing him or her to various political areas. I regard the postgraduate training as one of my strong points, which I would like to develop further.

I regularly receive overseas postgraduate students (PGS).

RESEARCH EXPERIENCE

I have had the opportunity to address several problems in pathology as detailed in my publications. My interest in research stems from the belief that it is essential to our understanding that the disease process, its pathogenesis, and progression whilst ultimately hoping for control. My heavy service commitments, particularly in liver and gastrointestinal pathology, have stimulated my research activities.

I have supervised the laboratory part in the following post-graduate theses:

1. Mr J M Mellor - MSc Thesis.
"The histochemistry of the liver in primary biliary cirrhosis"
2. Dr C Babbs - MD Thesis.
"The extracellular matrix of the liver in primary biliary cirrhosis"
3. Dr A Priddy - MD Thesis.
"Prostaglandin, ovulation and the effects of prostaglandin synthetase inhibitors"
4. Dr E Eyong - MD Thesis.
"Evaluation of the effects of new generation progestogens on pituitary ovarian activity on the genital tract"
5. Mr M Wilson - MD Thesis.
"New prognostic factors in colorectal cancer"
6. Mr P Clark - MSc Thesis.
"Phenotypic variation in primary and metastatic colorectal carcinoma"
7. Miss Duff. MD Thesis. *Angiogenesis in colorectal carcinoma.*
8. Mrs Rezan Gardy. M Phil.
"Angiogenesis in colorectal cancer".
